Three decades of trust driving a new global vision

THREE DECADES OF TRUST WRAPPED IN QUALITY

What began in 1995 as Tân Đại Thành, founded by Mr. Trâu Hồng, was built on a strong commitment to quality PE packaging, deep technical expertise in machinery, and a global business mindset ahead of its time. His early focus on export markets laid the foundation for what would become Đạt Thành International - a company built on over three decades of manufacturing expertise and now led by the second generation, Mr. Trâu Chí Đạt, with a bold global vision.

Today, we honor those roots while continuing to strengthen for our manufacturing capabilities, global market experience, and long-term partnerships to serve customers across 17+ countries with confidence.

+30 *years experience*

"We believe a reliable manufacturing partner is defined not just by the product but by theability to maintain consistent quality across every order."

Trau Chi Dat - CEO

ABOUT US

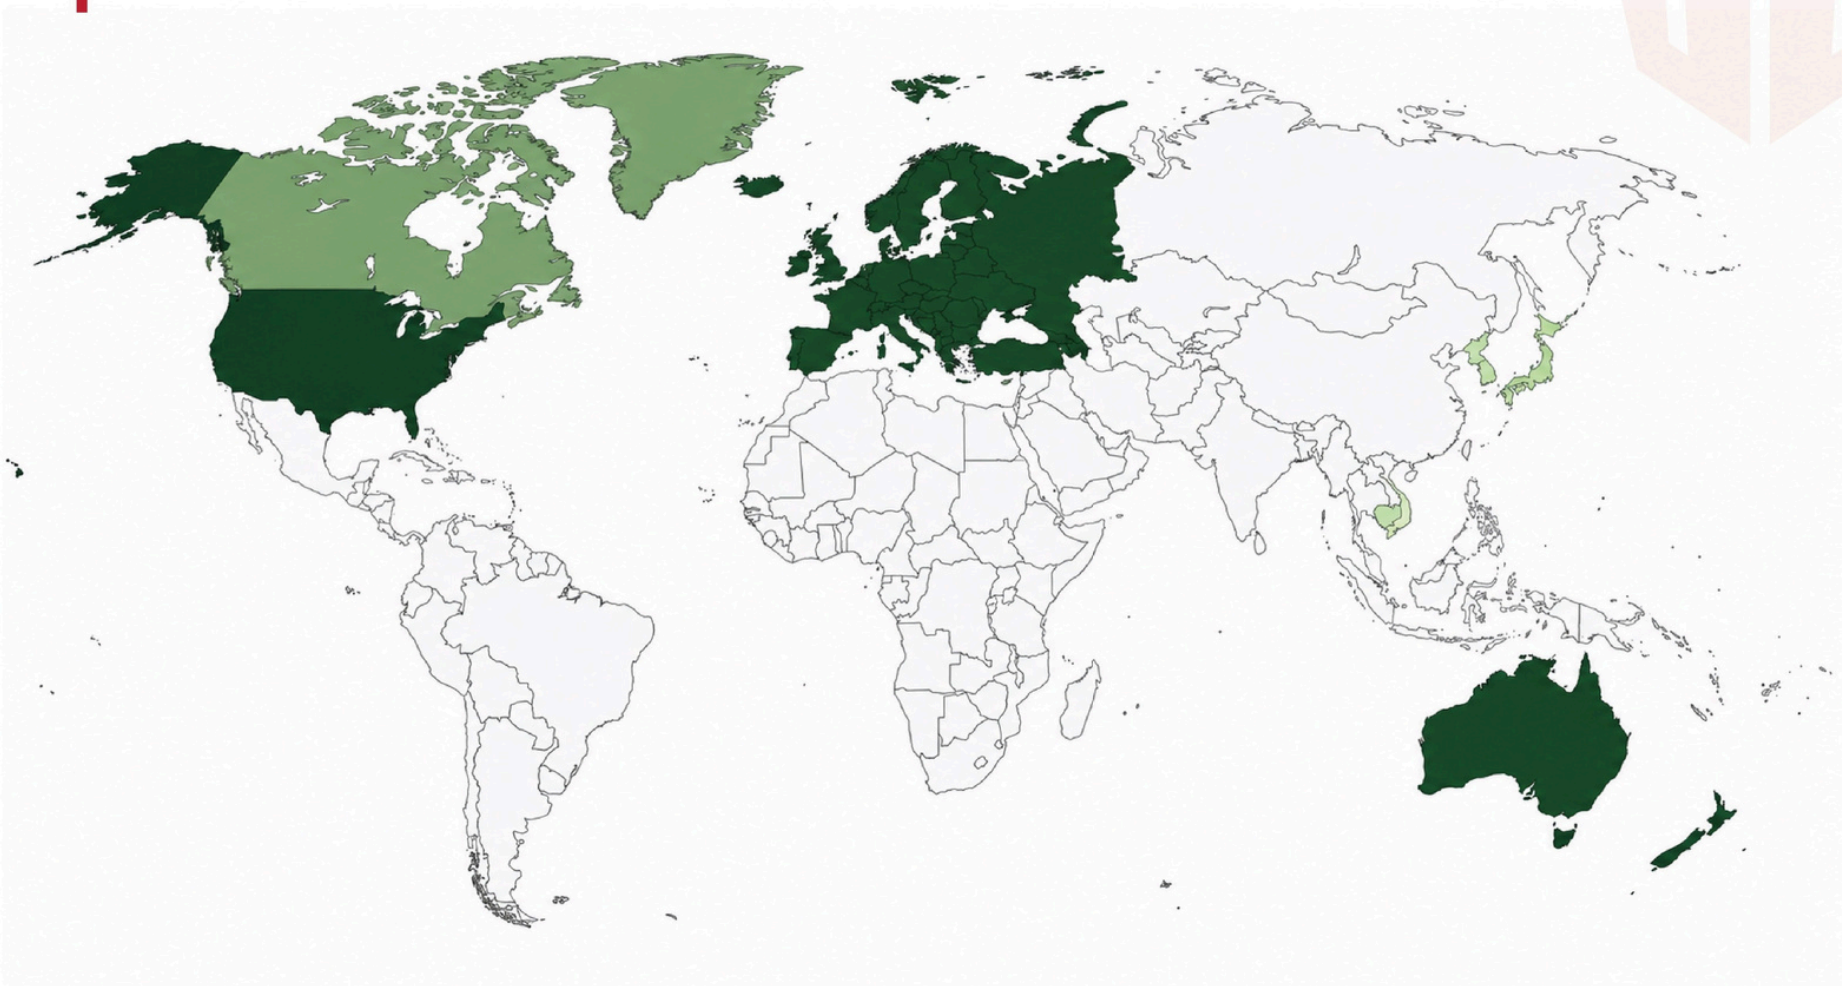

GO GLOBAL

Vietnamese bravery on the global map

DAT THANH PLASTIC & JOURNEY TO GLOBAL

Beyond mere growth numbers, DTI Plastic's journey affirms the value of Vietnamese intellect globally.

From Vietnam, our products have traveled across oceans to conquer the world's most demanding standards

1785+
B2B CUSTOMERS SERVED

Built on decades of long-term business partnerships.

17+
EXPORT MARKETS

Proven export experience across global markets.

141+
CUSTOM PROJECTS DELIVERED

From customer specifications to production-ready packaging solutions.

125+
THOUSAND TONS PRODUCED & DELIVERED

Built on consistent production and reliable delivery.

Your premier choice for packaging solutions

OUR CORE VALUES & COMPETITIVE ADVANTAGES

WHY CHOOSE US

01 ADVANCED INFRASTRUCTURE & GLOBAL SCALE

Owning a factory infrastructure of **6,000m²** with hi-end technology, DTI Plastic is committed to the production capacity to meet the **delivery schedule and absolute stability** for export orders to more than 17 countries.

02 FLEXIBLE OEM/ODM

Not selling what is available, we research and mix our own formulas to accurately meet the **specific specifications** of each industry, helping partners **optimize shipping & logistics costs**

03 ZERO-DEFECT QUALITY

Completely eliminate risks for buyers with a **strict mechanical and mechanical control system**. Commit to 100% authentic virgin plastic particles and **100% of the shipment is traceable,** ensuring a serious defect rate close to 0%.

04 EXPORT-READY EXPERTISE

With more than 30 years of experience and deep understanding of technical barriers/green stavndards in strict markets **(US, Australia, Europe, Japan)**, DTI Plastic not only provides packaging but also a safe export partner, understanding international rules.

ESG

Our commitment to a greener planet

GREEN MANUFACTURING & RESPONSIBILITY

Solar-Powered Manufacturing

Covering 6,000m² of factory roof with solar cell system, actively using clean energy to directly reduce Carbon footprint on each PE product.

Recyclable PE Solutions

Using 100% primary plastic without impurities, ensuring maximum toughness and complete recyclability according to European and Australian standards.

Closed-Loop Manufacturing

Internally recycle all plastic scrap generated and operate a circulating water filtration system, minimizing waste and resource consumption.

Ethical Governance & Safe Workplace

Standardize the factory according to 5S standards and Lean management, commit to a 100% safe working environment and comply with social responsibility.

HOUSEHOLD PACKAGING

DRAWSTRING ICE BAG

DTI Plastic Drawstring LDPE Ice Bags feature high durability, extreme load-bearing strength, and superior water resistance. A specialized industrial packaging solution for F&B and retail ice packaging, they support OEM/ODM manufacturing for international export at competitive pricing.

Household Packaging

DRAWSTRING ICE BAG

Material LDPE

Size

11" x 18" **11" x 19"** **15" x 23"**

**Custom options of size available upon request.*

Design

Sturdy drawstring system with finely finished cord ends for quick sealing, leak prevention, and protection against bacterial intrusion.

Features

Superior durability with high-tech bottom heat seals for extreme load capacity, keeping ice cubes secure and preventing bursting during long-distance transit or heavy vibrations.

LDPE ROLL BAG

DTI Plastic LDPE Produce Bags on Roll are designed to meet food and product packaging needs across supermarkets, convenience stores, food processing areas, and production lines. The roll design optimizes handling operations, saves storage space, and enhances operational efficiency.

Material LDPE

Size **12" x 17"** **11" x 17"** **12" x 19"**
**Custom options of size available upon request.*

Design

Perforated bags with quick-opening mouths and heat-sealed bottoms for easy packaging.

Features

Moisture-proof, waterproof, and transparent packaging ideal for fresh produce, frozen foods, and consumer goods.

HDPE ROLL BAG

DTI Plastic HDPE Produce Bags on Roll are specifically designed for the food and retail industries, providing a convenient packaging solution with lightweight properties, high durability, and cost effective operations. Ideal for supermarket chains, grocery stores, and large-scale packaging lines.

Material HDPE

Size **12" x 17"** **11" x 17"**
**Custom options of size available upon request.*

Design

Roll format with perforations for easy separation, quick opening mouth, and embossed texture for enhanced grip.

Features

Ultra-lightweight, moisture-resistant design reduces costs and preserves freshness.

HEADER BAG HDPE

DTI Plastic Header HDPE Bags are specifically designed for retail systems and food stores. The sturdy header bar paired with a highly transparent body optimizes packaging operations, product display, and overall user experience.

Household Packaging

HEADER BAG HDPE

Material HDPE

Size
12” x 18”
**Custom options of size available upon request.*

Design

Securely heat-sealed header bar integrated with a hanging hole (Euro Slot) for direct shelf display and convenient handling or carrying. A wide opening allows for fast product insertion and retrieval.

Features

Block dispensing design enables smooth, single-bag pulling, prevents multiple bags from sticking together, and optimizes display space at sales counters.

T-SHIRT BAG

DTI Plastic HDPE T-Shirt Bags are designed to meet packaging needs across retail, supermarket, and commercial sectors, offering high durability and flexible customization for OEM/ODM orders.

Material HDPE

Size **6+4 x 15”** **8+4 x 16”** **10+5 x 18”** **31+18 x 55cm**

**Custom options of size available upon request.*

Design

Sturdy handles and heat-sealed bottom enhance load capacity and prevent tearing under heavy goods. Available packaged in blocks or on rolls.

Printing

Supports logo, brand info, and custom design printing using high-quality technology for sharp, durable colors.

GARBAGE BAG

DTI Star-Seal Garbage Bags feature a leak-proof, high-durability bottom design suitable for residential, commercial, and industrial waste collection.

Material LDPE

Size **38” x 58”** **38” x 60”**

**Custom options of size available upon request.*

Design

Star Seal bottom evenly distributes weight, reducing the risk of bottom tears and preventing liquid leakage. Supplied on rolls with clear perforations for fast and convenient single-bag dispensing.

Features

Leak-proof and high load-bearing capacity, ideal for dry, wet, and daily organic household waste, while optimizing storage and operational efficiency.

STAR-SEAL BAG ON ROLL

DTI Plastic Star-Seal Bags are specially designed for the food and retail industries. The star-sealed bottom structure evenly distributes weight, increasing durability and reducing the risk of leakage when holding food or goods.

Material HDPE

Size **15" x 20"**
**Custom options of size available upon request.*

Design

Star Seal bottom evenly distributes weight around the bag body, minimizing bottom tears and enhancing leak resistance. Packaged on rolls with plastic cores, making them convenient to mount on hanging racks for continuous use at retail counters or food preparation areas.

ELASTIC FOOD COVER

DTI Elasticated Food Covers stretch to securely seal containers, locking in freshness and blocking odors for home, restaurant, and catering use.

Material HDPE LDPE

Size **42cm x 42cm**
**Custom options of size available upon request.*

Design

Elasticized opening provides flexible stretch, snugly fitting various sizes of bowls, plates, and dishes; can also be used as a shower cap or hair processing cap.

Features

Creates an airtight seal to lock in freshness, prevent refrigerator odors, and protect against dust and water. Packaged in compact, single-use pouches for easy to handling, storage, and portability.

POLYETHYLENE BAG

DTI Plastic Clear Flat LDPE Bags are designed to meet packaging and preservation needs across manufacturing, warehousing, and distribution. Offering high durability, the product helps protect goods from dust, moisture, and environmental elements.

▸ Material LDPE

Size **6+3x12"** **12+6x24"** **8+4x18"**
**Custom options of size available upon request.*

▸ Design

Loose single bag with a durable heat-sealed bottom, enhancing tightness and load-bearing capacity during use.

▸ Features

Dustproof, moisture-proof, tear-resistant, and puncture-resistant. High transparency allows for easy inspection and visibility of enclosed goods.

AGRICULTURAL MULCH FILM

Dat Thanh agricultural mulch film is specially designed for modern farming. The product helps control weeds and pests, retain soil moisture, stabilize temperature, and increase crop yields. Featuring a smart two-sided structure, it not only optimizes cultivation efficiency but also saves costs and labor.

NON-PERFORATED FILM

▸ Material LDPE

Size **100cm x 1000m**
**Custom options of size available upon request.*

Best for: Custom row planting, specialized crops
Flexible spacing: Easily adaptable to custom planting distances
Maximum weed control & moisture retention: Retains soil moisture and maximizes weed prevention

PRE-PERFORATED FILM

▸ Material LDPE

Size **100cm x 1000m**
**Custom options of size available upon request.*

Best for: Cucumbers, strawberries, chili peppers, tomatoes, and leafy vegetables
Pre-drilled holes: Pre-punched at standardized intervals
Time-saving: Reduces installation time and labor
Uniform density: Ensures consistent planting density to optimize crop yield

INDUSTRIAL PACKAGING

DISPOSABLE APRONS

Disposable PE aprons/gowns are a convenient protective solution that guards against water, grease, and stains during work. Lightweight and easy to wear, they ensure hygiene and are suitable for various industries, including food processing, spas, healthcare, and industrial cleaning.

Design

Equipped with a convenient neck strap and waist ties for quick donning and doffing, providing a snug fit and comfort during work.

Features

Waterproof, grease-resistant, and protects clothing from stains. Meets hygiene standards for use in the food industry and professional work environments.

AMBULANCE STRETCHER

Material PE

Size

1300+1000x1000mm

**Custom options of size available upon request.*

Design

Fitted elastic band securely hugs the corners of the stretcher, preventing shifting during patient transport.

Features

Prevents fluid penetration, reduces cross contamination, and allows for quick replacement during use.

LINER BAG/BOX LINER

High-grade LDPE carton liners provide a cost-effective barrier to wrap products and shield them from moisture and contamination before outer boxing. An essential internal packaging solution for agricultural produce, food items, and machinery parts.

Material LDPE

Size

45cm x 45cm

**Custom options of size available upon request.*

Design

Features a gusseted structure tailored to fit standard carton boxes, ensuring easy insertion, smooth corner lining, and convenient manual packing.

Features

Offers excellent waterproof protection, dust prevention, and high tear resistance. Keeps contents hygienic, safe from leakage, and moisture-free during storage and shipping.

STRETCH HOODER

Technical high-stretch film engineered for automatic stretch hooding machines. It tightly secures and seals palletized loads, providing combined structural stability and complete weather protection during transport.

Material LDPE

Size
1300mm + 1000mm
**Custom options of size available upon request.*

Design

Formulated with high elasticity and elastic recovery for seamless compatibility with automated packaging lines.

Features

Provides high holding force to prevent cargo shifting, along with strong puncture resistance, 5-sided weatherproofing, and customizable stretch ratios.

PALLET COVER

Heavy-duty PE pallet covers protect palletized goods from dust, dirt, and moisture during storage and transit. Built on DTI's core PE bag manufacturing capacity, they offer a simple, reliable protective solution for logistics and warehousing.

Material LDPE

Size
1300mm + 1000mm
**Custom options of size available upon request.*

Design

Features a pre-formed gusseted design for quick, effortless manual application over standard or custom pallet loads.

Features

Delivers strong puncture and tear resistance to shield cargo. Available in clear, colored, UV resistant, and anti-static options.

HAND STRETCH FILM

PE pallet wrap film is a high-elastic plastic film, used to wrap and fix goods on pallets during transportation and storage. The product helps protect goods from dirt, mold, limit swaying and damage, while optimizing packaging costs and improving work efficiency.

Material LDPE

Size **250–500 mm**
Lenght - **Depending on the roll specification**
**Custom options of size available upon request.*

Design

Flexible and optimized for warehouses with small to medium pallet volumes.

Features

Easy to wrap manually by hand without machines; features excellent stretchability to create tight holding force for securing cargo, while effectively resisting tears and punctures.

MACHINE STRETCH FILM

Specialized stretch PE film for semi-automatic and automatic pallet wrapping machines, helping to fix goods quickly, stably and optimize the amount of film used.

Material LDPE

Size **500–1000 mm**
Lenght - **1500 - 3000m**
**Custom options of size available upon request.*

Design

Transparent surface & One-sided adhesive: Easy to scan barcodes/label stamps; smooth outer surface prevents pallets from sticking together when stored.

Features

Elasticity and uniform tightening force secure packages, while high puncture and tear resistance protect against sharp corners.
Compatible with automatic and semi automatic wrapping machines, it increases packaging speed and performance.

BEAUTY & NAIL PACKAGING

SPA PEDICURE LINER

Disposable pedicure spa liners are a single-use hygiene solution for nail salons and spas, helping prevent cross-contamination, save cleaning time, and elevate the customer experience. Featuring a flexible elastic design, they fit a wide variety of foot soak tubs.

Beauty & Nail Packaging

SPA PEDICURE LINER

PRODUCT APPLICATIONS

- **Beauty & Personal Care:** Pedicure basin liners/covers, ensuring hygiene in Spas and Salons.
- **Home & Furniture Protection:** Dust covers for furniture (tables, chairs, sofas) during home renovations or long trips.
- **Logistics & Warehousing:** Protective covers for cars, motorcycles, and industrial machinery against water and scratches.

▸ *Material* **LDPE**

Size **1200mm x 1200mm**

**Custom options of size available upon request*

DISPOSABLE NAIL KIT

Disposable nail kits are a professional hygiene solution for nail salons and spas, providing a complete set of essential tools for a safe pedicure process. Individually packaged for convenience, they ensure absolute hygiene and elevate the customer experience.

Beauty & Nail Packaging

DISPOSABLE NAIL KIT

PRODUCT APPLICATIONS

- **Salon Nails:** Nail salons and pedicure spas
- **Personal use:** Suitable for home care
- **Premium service:** Ideal for high-end customer care requiring strict hygiene standards.
